## DVP703 Broadcast Level LED Video Processor

DVP703 is a broadcast high-high stability LED Video processor . It supports audio and video synchronisation switch, HDMI audio recording, any channel seamless switching ,PIP and POP function and timing switch. DVP703 features automatic lock technology which means you can set the timer or boot times and the machine will automatically lock and stop work. It supports 7-channel video input and 2-channel external audio access including 2 composite video(CV), 2 VGA, 1 DVI, 1 HDMI, and DVI interface. DVP703 uses dual-core image processing engine with a single-core of 30-bit image scaling technology. It has built -in multi level gamma selection and image colour deployment. DVP703 can support customise output resolution of up to 265 million pixels @ 60Hz. Output width resolution of up to 3840 and height of up to 1920.

### Features:

- Audio and video synchronisation
- 2.65 megapixel customise resolution
- Timing switch(DVP703T)
- Timing shutdown function
- Any channel seamlessly switch
- Optional SDI and SDI-LOOP
- Support multi -machine splicing
- PIP and POP Function
- Chroma Key function
- Scene presets save and recall
- Hot key black screen
- Partial of full screen switch
- Supports PC Control

### Audio and Video Synchronisation

DVP703 input signal source can be associated with HDMI audio, audio, external L1R1, external L2R2, transmission without delay, no noise.

### Timing Shutdown

DVP703T set shutdown timer or boot frequency -the processor will stop work if time out or boot limitation.

### PIP, POP, Color Key

DVP603 has 2 processing engines that can handle two 2K images in the same output to achieve PIP,POP, colour key output function.

### Seamless Switch

DVP703 is seamless switch splicing device- all the input channel switching can be seamlessly switched.

### Multi-machine splicing

Using 2 or more than 2 sets of DVP703 can cascade splicing and realise 0 time difference synchronisation.

### Customise Resolution

DVP703 has a precise customised resolution output 2.65 million pixels @60Hz/@30Hz resolution.

3000x870@60Hz
