ARCHITECTURE

7R BEAM 230W

Specifications

Voltage 200W~240V/50-60Hz

Ballast Electronic-ballast

Lamp 7R 230W Lamp (2000 hrs lamp life)

Color temperature 8500K

Colours 14 colours + white colours wheel

Gobo 17 fixed gobo

Prism rotation 8-face prism

Lens Super high precision optical lens

Wash effect adjustable Wash effects angle

Focus linear adjustment

Dimmer 0-100% linear adjustment

Pan/Tilt X axis 540° Y axis 200° automatically accurate positioning

Beam angle parallel beam angel 0 – 3.8°

Strobe Double lens strobe (0.5-9 times/ second)

Control mode Standard DMX512, Automatic and

Master/ slave mode

Channel 16 CHs

Display panel Finest touchscreen display

Lamp on/off can be triggered by controller

Function in built CPU for error sensor detection for troubleshooting of lighting

Flygear Omega quick release

Weight 18.5KG

Super bright beam projection of up to 100M distance. Super fast movements for light show display. An error free light with cpu built in to detect errors from the movinghead.
