

CLAIR LIGHTING

ULTRA PRO 700W 3IN1

Light source: Super bright 700W LED white light module

Color temperature: 8500K

LED lifespan: ≥ 20000 hours

Rated voltage: AC100-240V~50/60Hz

Power: 1000W

Fuse: T10A/250V

Rotating gobo: 7 types of rotating patterns with white, equipped with a "slot and lock" system for easy replacement of gobo

Fixed gobo: 8 fixed patterns with white

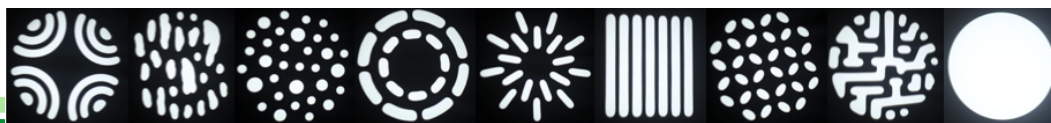

Colour: 6 fixed colour, can rotate in both directions, half colour effect

CMY: linear adjustable CMY colour mixing

CTO: 2500-7000K

Effect disc: The dynamic effect creates water ripple and flame effects, which can be rotated and replaced

Prism: A 4-sided prism with bi-directional rotation for smooth, fast, and slow adjustment

Fixed gobo

Rotating gobo

Framing system: 4 individually positionable shutter blades, Rotation of the framing system module: $\pm 60^\circ$ to create multiple framing effects.

The cutting system can move smoothly and accurately located, and a single piece can completely turn off light.

Zoom angle: $5^\circ - 50^\circ$

DMX input/output: 3pin and 5pin XLR socket

Control protocol: DMX512, RDM, self-propelled, voice controlled, Art Net optional.

DMX channel: 36CH

X-axis operating angle: 540° 16bit precision scanning

Y-axis operating angle: 270° 16bit precision scanning

Fixed lock: horizontal/vertical lock

Automatic correction of X-axis/Y-axis position

Weight: 43Kg
